FACULTY OF MANAGEMENT SCIENCES

**SHAHEED BENAZIR BHUTTO
DEWAN UNIVERSITY**

Introduction

Faculty of Management Sciences evolved from the need for a world-class business school in Asia. The founders, some of the best minds from the corporate and academic worlds, anticipated the leadership needs of the emerging Asian economies.

The institute seeks to work in close Cooperation with the corporate sector and is attempting to develop teaching and research programs that cater to the needs of the corporate sector. Consultations with HR management of Dewan Group of Companies have been initiated as a needs assessment exercise. It is hoped that Department of Business Administration will be able to develop as a corporate university.

Faculty of Management Sciences is committed creating outstanding faculty through its innovative programs.

Faculty of Management Sciences

Faculty of Management Sciences has a unique and innovative approach to business education, that focuses on providing the right knowledge, imparting the right skills for enduring success in management careers, and shaping the right attitudes.

1. Knowledge:

The right knowledge is clearly a critical success factor in business. The right knowledge implies relevant, contemporary and cutting-edge knowledge, in the theory and practice of a variety of core, functional and integrative subjects. As practice precedes theory in business, equal emphasis is placed on concepts and applications. This blending of ideas and actions is achieved through various pedagogic techniques like lectures, case studies, business games, the summer internship program, the management research project, etc.

2. Skills:

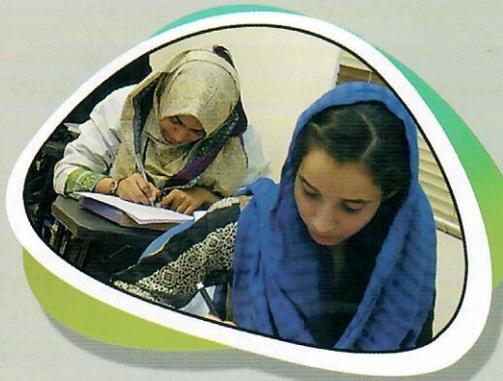

What matters most in business is what one can actually do. Doing well implies mastering and applying the skills – professional, personal and human – required for effective decision-making and execution. DOB trains the students in these skills through a series of soft-skills lab sessions scheduled over the duration of the program. In addition, case-based learning at helps students develop good analytical skills.

3. Attitude:

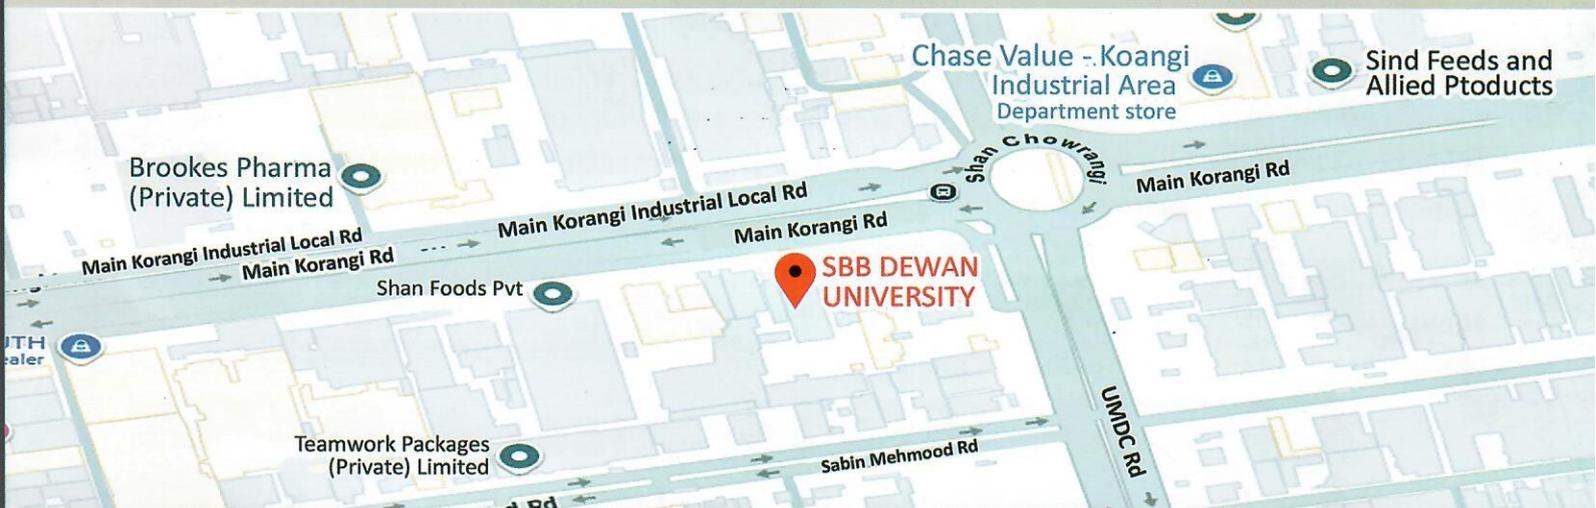

A critical attribute for success in life is cultivating the right attitudes like positive thinking, risk-taking, opportunity-seeking, adapting to change, and achieving a proper balance between divergent goals of life. DBA helps students develop the right attitudes, and encourages them to grow into balanced and well-rounded individuals capable of taking up leadership positions.
